Attachments: E17621_Spike Drilling_NOFI.pdf; spccfactsheetspillreportingdec06-1.pdf

Mr. Pratt - Thank you for the Contact information. Attached is a Notice of Federal Interest (NOFI) issued by OSC Bernier.

As we discussed yesterday, the Clean Water Act, Section 311, requires the owner/operator of a facility that has a discharge of oil impacting surface waters, to follow certain federal reporting requirements. These requirements are found in two EPA regulations – 40 CFR part 110, Discharge of Oil regulation, and 40 CFR part 112, Oil Pollution Prevention regulation. The Discharge of Oil regulation provides the framework for determining whether an oil discharge to inland and coastal waters or adjoining shorelines should be reported to the National Response Center. Please see the attached Fact sheet:

The NRC can be reached at: 800-424-8802

Respectfully,

Bryant Smalley
Oil Spill & Response Team Leader
